

# *It is the Season!*

You can join the Kemba Christmas Club any day of the year and start saving money for next year's holiday travel, festivities, and gifts.

Current Christmas Club members don't need to do anything to continue to participate! Current members will continue to have their designated amount accumulate for the next year without ever needing to notify us again. Current participants would only need to notify Kemba if they wanted to increase or decrease their contribution amount.

Each year on November 1st, accumulated Christmas Club savings will be transferred to member savings or checking accounts for immediate access to their funds. It's that simple!

Family members can also join Kemba and immediately participate in this practical savings promotion also, and remember:

**Members can join Kemba Christmas Club any day of the year!**

*To join, please complete the information on the back of this form and return it to Kemba Delta Federal Credit Union.*
